

# Opportunity Guidance Support

## DataArchiva best met Stringent Data Retention & Security Needs of Connecticut Department of Labor

### Challenge

- **Long-term Data Retention:** They need to retain their data for seven years as per Federal & State retention policies.
- **Recurring Data Storage Cost:** As they were dealing with a huge volume of data, their Salesforce Org was out of storage space and the recurring data storage cost was rising.
- **Gov Cloud Ready:** They were looking for an archiving solution that is certified to work with US Gov Cloud.

### Solution

- DataArchiva offered structured data archiving and archived all the historical data including emails, public records, case history, activities (tasks & events), audit data and reports.
- Seamless Archived data accessibility for future audits.
- DataArchiva implementation, initial data migration, solution training & support.
